

Docket PRECI-P5366

PATENT

C<sup>1</sup> The terms "reuse" and "reusable" in the context of this disclosure apply to the removal and reuse of the securement means and the embedded circuit in the securement means.--

In the Claims:

~~19. (Twice Amended) A radio frequency device~~  
comprising:

disposable attachment means for locating said device on an object or an individual to be identified, said attachment means being a disposable wristband, said wristband having opposite extremities;

reusable securement means demountably engagable with the opposite extremities of said wristband to maintain said wristband in temporary operative relationship with and being separable from said extremities when said wristband is discarded; and

radio frequency identification circuit embedded [means located] in said securement means for reuse with said securement means with a replacement wristband after the disposable wristband has been discarded.

~~21. (Twice Amended) A radio frequency identification device comprising:~~
